

## OSCO Trace-O-Flex Marker

Catalog: [Cathodic Protection and Tracing](#) [1]

[2]

SKU: BCM0

The OSCO Trace-O-Flex marker is an economical post that offers many features. The unique profile allows for the placement of decals on both sides of the post, while at the same time offering protection to the warning and identification markings. The special design of the Trace-O-Flex gives it the ability to flex, if necessary. The OSCO Trace-O-Flex Marker comes standard with 2 copper test points and anchor. Lead wire can be added.

Post Color
